

Monroe County – Transforming Education with ArcGIS and Geospatial Technologies

Jeff Boudrie, Monroe County GIS Manager

Russell Columbus, Monroe County High School Teacher

Donovan Vitale, Monroe County GIS Intern

Allison Hoff, PhD Candidate, Eastern Michigan University, GRACE Project Coordinator

Randy Raymond, GIS Specialist, GRACE Project Senior Advisor

GRACE

Geographic Information Systems Resources and Applications for Career Education

Goal:

To enable teachers and students to develop new STEM skills and competencies

Sponsors:

- Eastern Michigan University and Partners
- National Science Foundation

Original GRACE Model

Explorer

Investigator

Intern

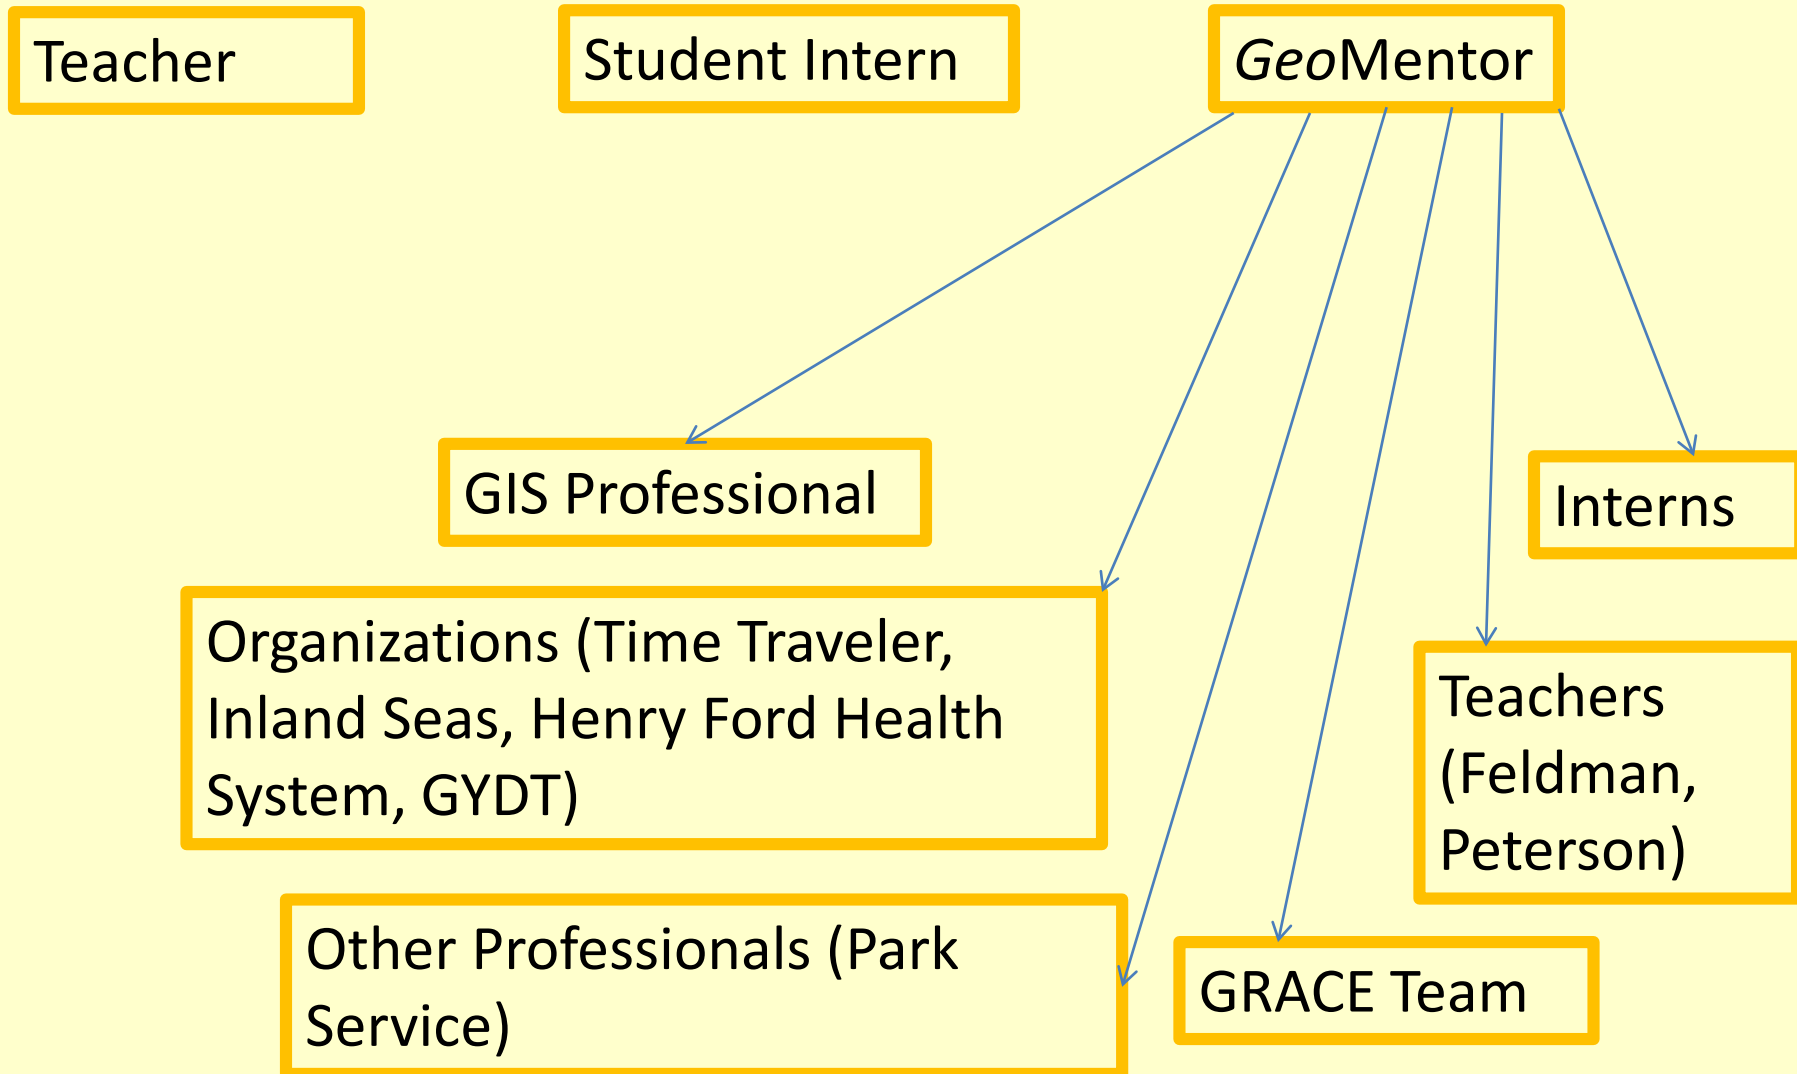

Teacher helps in classroom

Student more independent

GeoMentor in Professional Environment

Variations on GRACE Model

Findings

- Many formats emerged
 - Different pathways, locations, courses, mentor-types
- Best to let the format emerge from the context
 - who at the table
 - what GIS skills needed for the internship project(s)
- Formats had different levels of **engagement**:
 - Complexity of the internship project(s)
 - Effort to learn the skills
 - Accessibility

Good to have many formats and levels of engagement

GRACE PROJECT Pre-Intern ESRI Academy Courses

<http://esri.com/training>

GRACE PROJECT provides students with professional GIS/T training and opportunities to gain work experiences in local organizations as Interns. Students will have access to ESRI Virtual Campus for their online learning activities.

An overview of the 2017-2018 GRACE Internship Training Program can be found here [Click](#)

Option I: Professional GIS Career Pathway Internship Training – Primarily using ArcGIS Pro (35.5 Hours)

(The course description is cited from 2017 Higher EdPlanning Guide to Esri E-Learning)

Part A: ArcGIS Pro Fundamentals (23 hours)

These web course offerings introduce fundamental concepts and workflows for the ArcGIS Pro application.

[Getting Started with ArcGIS Pro \(5.5 hours\)](#) Introduces the ribbon-style interface, project-based organization, and key capabilities of ArcGIS Pro.

[Displaying Data in ArcGIS Pro \(1.25 hours\)](#) Introduces ArcGIS Pro tools for symbology.

[3D Visualization Using ArcGIS Pro \(2.25 hours\)](#) Introduces the ArcGIS Pro 3D environment and explains how to create and share realistic 3D scenes.

[Managing Map Layers in ArcGIS Pro \(1.0 hour\)](#) Introduces basic layer property settings.

[Querying Data Using ArcGIS Pro \(0.5 hour\)](#) Teaches the building blocks of query expression and how to select features that meet one or more attribute criteria.

[Integrating Data in ArcGIS Pro \(1.25 hours\)](#) Teaches GIS data concepts and adding data to a geodatabase.

Part A: ArcGIS Pro Fundamentals (23 hours)

These web course offerings introduce fundamental concepts and workflows for the ArcGIS Pro application.

[Preparing to Perform Analysis Using ArcGIS Pro \(1.25 hours\)](#) Presents using ArcGIS geoprocessing tools that support spatial analysis projects. Discusses how to choose the appropriate tool, and works through a short project.

[Editing Basics in ArcGIS Pro \(2.0 hours\)](#) Shows how to practice editing tools and workflows to keep data accurate and current

[Automating Workflows Using ArcGIS Pro Tasks \(4.5 hours\)](#) Teaches how to create and share ArcGIS Pro tasks to increase productivity.

[Sharing Maps and Layers with ArcGIS Pro \(3.5 hours\)](#) Teaches best practices for sharing projects, maps, layers, tools, and other items using a portal, such as ArcGIS Online, so that they can be used with mobile devices, web and desktop applications.

Part B: Mapping, visualization, image analysis and sharing your map (12.5 hours)

These training offerings provide options for extending learning about mapping, visualization, and image analysis.

[Cartographic Creations in ArcGIS Pro \(Tutorial\) \(2.0 hours\)](#)

[Creating and Sharing Animation in ArcGIS Pro \(1.5 hours\)](#) Shows how to animate and produce ready-to share videos of your work.

[Creating Vector Tiles in ArcGIS Pro \(1.5 hours\)](#) Explains why and how to create vector tiles for fast and compelling web apps.

[Displaying Raster Data Using ArcGIS Pro \(2.75 hours\)](#) Learn techniques to display and enhance rasters and imagery in ArcGIS Pro. Learn to appropriately symbolize rasters based on their attributes and intended use, modify raster properties to support better visualization and interpretation, and apply out-of-the-box appearance functions to enhance the viewing experience.

Part B: Mapping, visualization, image analysis and sharing your map (12.5 hours)

These training offerings provide options for extending learning about mapping, visualization, and image analysis.

[Classify Land Cover to Measure Shrinking Lakes \(1.25 hours\)](#) In these lessons, you'll assume the role of a geospatial scientist tasked with calculating the change in area of the lake between 1984 and 2014. Using Landsat imagery, you'll classify land cover in three images of the lake taken at various times over the past 30 years in order to show only the surface area of the lake. You'll then determine the change in lake area over time.

[Inform and Engage Your Audience with Esri Story Maps \(1.0 hours\)](#) Story maps combine web maps with text, photos, and other media to provide a rich, interactive experience. This seminar guides you through the steps to create a story map using the right application template for your purpose and audience.

[Creating and Sharing GIS Content Using ArcGIS Online \(2.5 hours\)](#)

Organizations use ArcGIS Online to facilitate collaboration and access to GIS resources. This course shows how to publish data and map layers to ArcGIS Online as services. Learn to build a web map and turn it into a web app.

Optional: Additional Courses for Spatial analytics (15.25 Hours- Optional- Not Required)

These training offerings provide options for extending learning about GIS analysis and modeling.

[Using ArcMap in ArcGIS Desktop 10 \(3.0 hours\)](#) ArcGIS 10 brings many enhancements to ArcMap that help you produce and share better maps faster. Learn about key new features designed to reduce time spent on common mapping tasks and improve the quality of your maps.

[Get Started with Survey123 for ArcGIS \(Tutorial\) \(1.5 hours\)](#) Teaches how to create a Survey123 form, analyze data, and share survey results with other ArcGIS platform client apps.

[Distance Analysis Using ArcGIS Pro \(3.5hours\)](#) Uses ArcGIS Pro to create raster surfaces for distance and path analysis.

[Terrain Analysis Using ArcGIS Pro \(2.75 hours\)](#) Uses ArcGIS Pro and ArcGIS Spatial Analyst tools to derive new raster data from an elevation raster for a variety of applications.

Optional: Additional Courses for Spatial analytics (15.25 Hours- Optional- Not Required)

These training offerings provide options for extending learning about GIS analysis and modeling.

[Performing Viewshed Analysis in ArcGIS Pro \(1.0 hours\)](#) Introduces the Viewshed tool and how to adjust the tool for an analysis.

[Generating Service Areas Using ArcGIS Pro \(1.0 hours\)](#) Uses ArcGIS Network Analyst and existing network data to create areas within a certain distance or travel time of a facility.

[Building Geoprocessing Models Using ArcGIS Pro \(2.5 hours\)](#) Introduces geoprocessing models and the steps required to create, validate, and run models that automate ArcGIS analysis workflows.

Monroe County, Michigan

Internship opportunities

2016

- Mr. Columbus selects prospective interns
- Interviews at Planning Department Office
- Four interns begin six week internship (120 hours)
- Two interns extend their internship for another 120 hours (eventually becoming part-time employees)

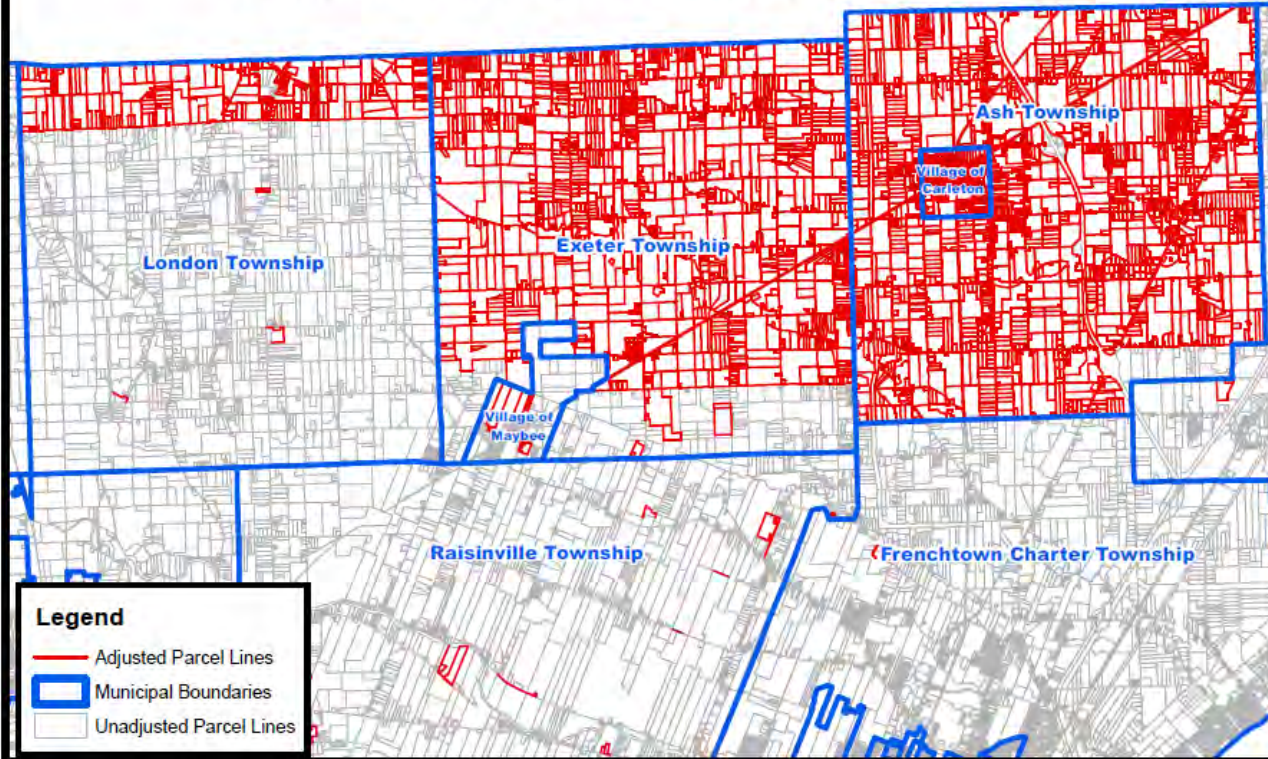

2017

- Two county interns assist in supervising four new summer interns

2018

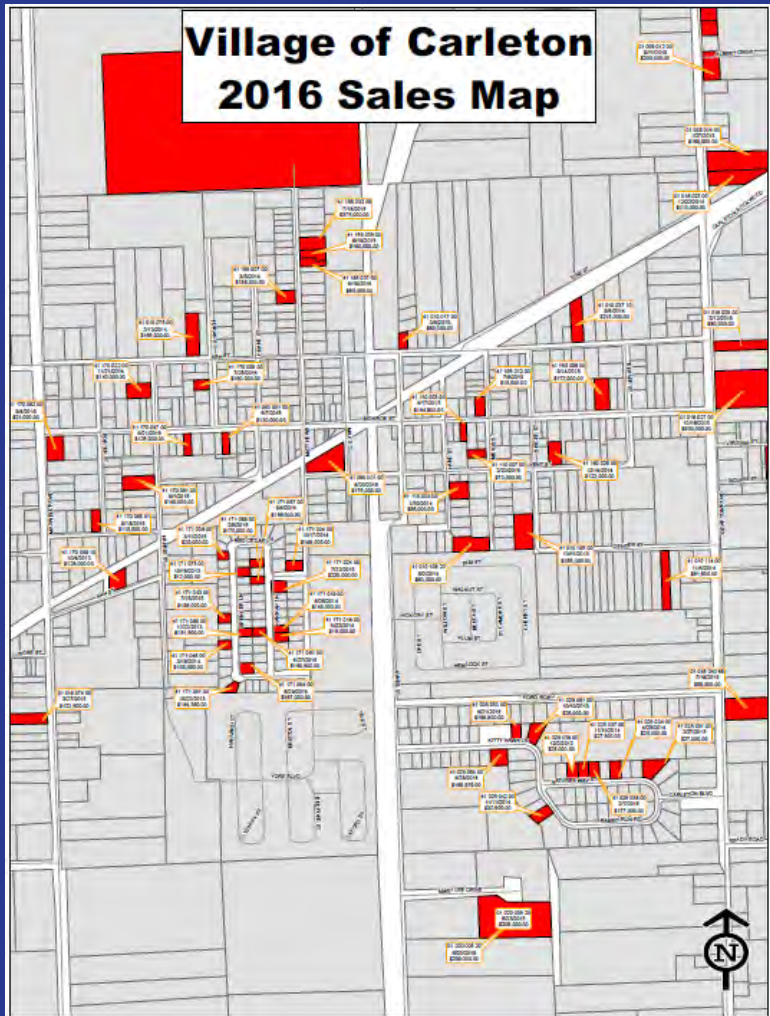

- One county intern assists in supervising two new and one repeating intern
- Repeating intern becomes part-time employee for the County Drain Commission

Reflection: was the GRACE Program and following internship worth while?

- Opportunity Cost
- What have I gained?
- How has this experience changed my future career outlook?
- Was it worth it?
